

NITHIN K

AI Engineer / Data Scientist / Software Developer

Email: nithingowda490@gmail.com | Phone: +91 8217264796 | Bangalore | GitHub: github.com/Nithin69-k | LinkedIn: linkedin.com/in/nithin-k-03795438a

PROFESSIONAL SUMMARY

Computer Science & Engineering student at Bangalore Technological Institute with a focused 16-month Data Science & AI certification from IIT Indore. I bridge the gap between data science and software engineering by building production-grade AI systems. My foundation spans the full ML stack: statistical thinking, feature engineering, model building, and deploying intelligent systems that solve real problems. I have put this knowledge to work in two back-to-back internships. At Intellipaat, I operated as a Data Scientist Intern—building machine learning models and running data analysis pipelines on real datasets. At MindMatrixEd, I shifted into applied AI and mobile engineering, working at the frontier of Generative AI and Android app development. I move between data science and software engineering fluidly—I understand how models get built and how they get integrated into products people actually use.

EDUCATION

Bangalore Technological Institute (Affiliated to VTU)

Bachelor of Engineering in Computer Science and Engineering | 2022 - 2026 | CGPA: 7.5

IIT Indore (via Intellipaat)

Data Science & AI Certification | 16 months (March 2025 - Present) | Comprehensive training in data analytics, machine learning, deep learning, and AI systems

Krupanidhi Pre-University College

Stream: PCMB (Physics, Chemistry, Mathematics, Biology) | 2021 - 2022

PROFESSIONAL EXPERIENCE

MindMatrixEd | AI & Android App Development Intern

February 2026 – May 2026

- Building and integrating Generative AI features into mobile application workflows
- Developing Android applications with seamless AI and ML model integration
- Working at the frontier of Generative AI and mobile engineering solutions

Intellipaat | Data Scientist Intern

September 2025 - February 2026

- Designed and trained supervised machine learning models for classification and regression tasks
- Performed exploratory data analysis and feature engineering on real datasets
- Ran data analysis pipelines and implemented machine learning algorithms for production deployment
- Built ML models that solve real-world problems with measurable impact

Intellipaath | Data Science & AI Program Participant

March 2025 - Present | Intensive training in data analytics, AI, machine learning, deep learning, and intelligent systems architecture

TECHNICAL SKILLS

Core Programming: Python, SQL, Java

Machine Learning & Deep Learning: Scikit-learn, XGBoost, Random Forest, TensorFlow, PyTorch, Supervised Learning, Unsupervised Learning, Feature Engineering

Generative AI & LLMs: Generative AI, Prompt Engineering, AI Model Integration, LLM Applications

Data Analysis & Visualization: Pandas, NumPy, PowerBI, Tableau, Exploratory Data Analysis (EDA), Data Visualization

Databases & Tools: SQL, MySQL, Git, Linux, Jupyter Notebook, Streamlit

Mobile Development: Android Development, Mobile App Integration with AI/ML

Additional Skills: Problem Solving (LeetCode), Collaborative Filtering, SVD (Singular Value Decomposition), Statistical Analysis

PROJECTS & RESEARCH

Telecom Customer Churn Prediction

Tech Stack: Python, Scikit-learn, Pandas | Repository: github.com/Nithin69-k/Telecom-Customer-Churn-Prediction-

- Developed an end-to-end machine learning pipeline that predicts customer retention using exploratory data analysis and feature engineering
- Implemented classification algorithms (Random Forest, XGBoost) to identify high-risk customers and enable proactive intervention strategies

Movie Recommendation System

Tech Stack: Python, Collaborative Filtering, Surprise | Repository: github.com/Nithin69-k/Movie-Recommendation-System

- Implemented machine learning-based recommendation engine using SVD (Singular Value Decomposition) and collaborative filtering
- Provided personalized movie suggestions based on user rating history and preferences

Parking Space Management System

Tech Stack: Python, SQL, Streamlit | Repository: github.com/Nithin69-k/Parking-Space-Management-System

- Developed automated parking management solution with real-time space tracking and user booking management through database integration
- Generated analytical reports on parking utilization trends
- Published research paper in International Journal of Creative Research Thoughts (IJCRT) - Certificate ID: IJCRT2509236

Shilpakala - Cultural Heritage Project Gallery

Tech Stack: Web Technologies / Repository: github.com/Nithin69-k/Shilpa-Kala / A comprehensive project gallery showcasing artistic works and cultural heritage

ACHIEVEMENTS & CERTIFICATIONS

- PowerBI Course Certification - Intellipaat (May 2026, Certificate ID: 31679-913421-306614)
- Python Certification Course - Intellipaat (May 2026, Certificate ID: 31679-912380-306614)
- Artificial Intelligence Course Certification - Intellipaat (May 2026, Certificate ID: 31679-912640-306614)
- Linux Training Certification - Intellipaat (May 2026, Certificate ID: 31679-912747-306614)
- SQL Course Certification - Intellipaat (May 2026, Certificate ID: 31679-913167-306614)
- Microsoft SQL Certification Training - Intellipaat (May 2026, Certificate ID: 31679-5845471-306614)
- Research Paper Publication - International Journal of Creative Research Thoughts (IJCRT), September 2025 (Certificate ID: IJCRT2509236) for Parking Space Management System project

SERVICES OFFERED

- Data Analysis & Insights - Comprehensive data analysis with actionable business intelligence and visualization
- Machine Learning Models - Development, training, optimization, and deployment of supervised and unsupervised learning models
- Data Visualization - Professional dashboards and visualizations using PowerBI and Tableau
- AI & Predictive Solutions - Implementation of predictive analytics and AI-driven decision support systems
- Generative AI App Integration - Seamless integration of Generative AI capabilities into mobile and web applications
- Android App Development - Full-stack Android application development with seamless AI and ML model integration
